

## **AGILOX showcased AI Expertise at NVIDIA GTC 2025 in San Jose, USA**

- **AGILOX: the only Austrian company among the exhibitors**
- **accepted into the NVIDIA Inception Program**
- **a milestone for Austria as a hub for cutting-edge technologies**
- **presence provided significant boost to the domestic tech industry**

**(Neukirchen bei Lambach, March 31, 2025) – AGILOX Services GmbH, the leading technology company for Autonomous Mobile Robots (AMRs) based in Neukirchen bei Lambach, was among the exhibitors at [NVIDIA GTC 2025](#), which took place from March 17 to 21 in San Jose, California. GTC is considered one of the world's premier events for artificial intelligence, robotics, and computing technology.**

### **AGILOX joins the NVIDIA Inception Program**

AGILOX has been accepted into the [NVIDIA Inception Program](#). This accelerator program supports promising startups in artificial intelligence, data science, and cloud computing by providing access to cutting-edge NVIDIA technologies and a global network of experts.

### **The only Austrian company at NVIDIA GTC 2025 in Silicon Valley**

As the only Austrian company among the exhibitors, AGILOX proved that Austrian businesses are competitive players in the global race for cutting-edge technology. The company's participation reinforced Austria's position as a technology hub and highlighted its leadership in automation and AI-driven robotics. By engaging with industry leaders, experts, and potential partners at the event, AGILOX took an active role in shaping the future of intelligent automation.

Following its successful presence at NVIDIA GTC 2025, AGILOX continues to build on its achievements, leveraging the insights, connections, and technological advancements gained at the conference to drive innovation forward.

## **About AGILOX Services GmbH**

AGILOX Services GmbH is the technology leader for autonomous mobile robots (AMR) for transport processes in warehouse and production logistics. Since its foundation in 2017, AGILOX has focused on the integration of artificial intelligence in order to continuously optimize the functionality and safety of its smart robots.

With more than 1,800 AMRs in use and renowned global customers such as Siemens, BMW, Bosch and Daimler, AGILOX is one of the leading general providers of scalable fleets of autonomous transport solutions.

Headquartered in Neukirchen bei Lambach, Austria, AGILOX Services GmbH has subsidiaries in Europe, the USA and China and employs more than 250 people worldwide.
